

# 03. MONOCACY MEMORIAL PARK & VISITOR CENTER

Fall - 2024

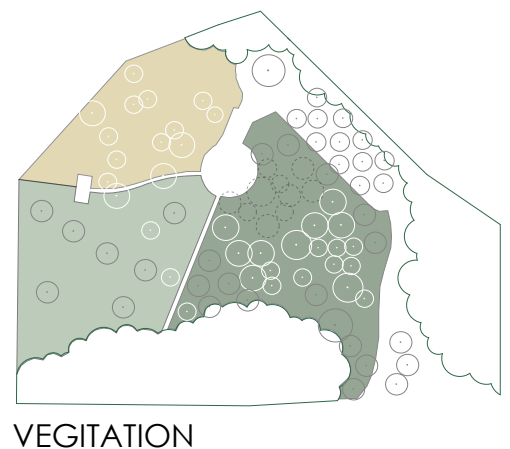

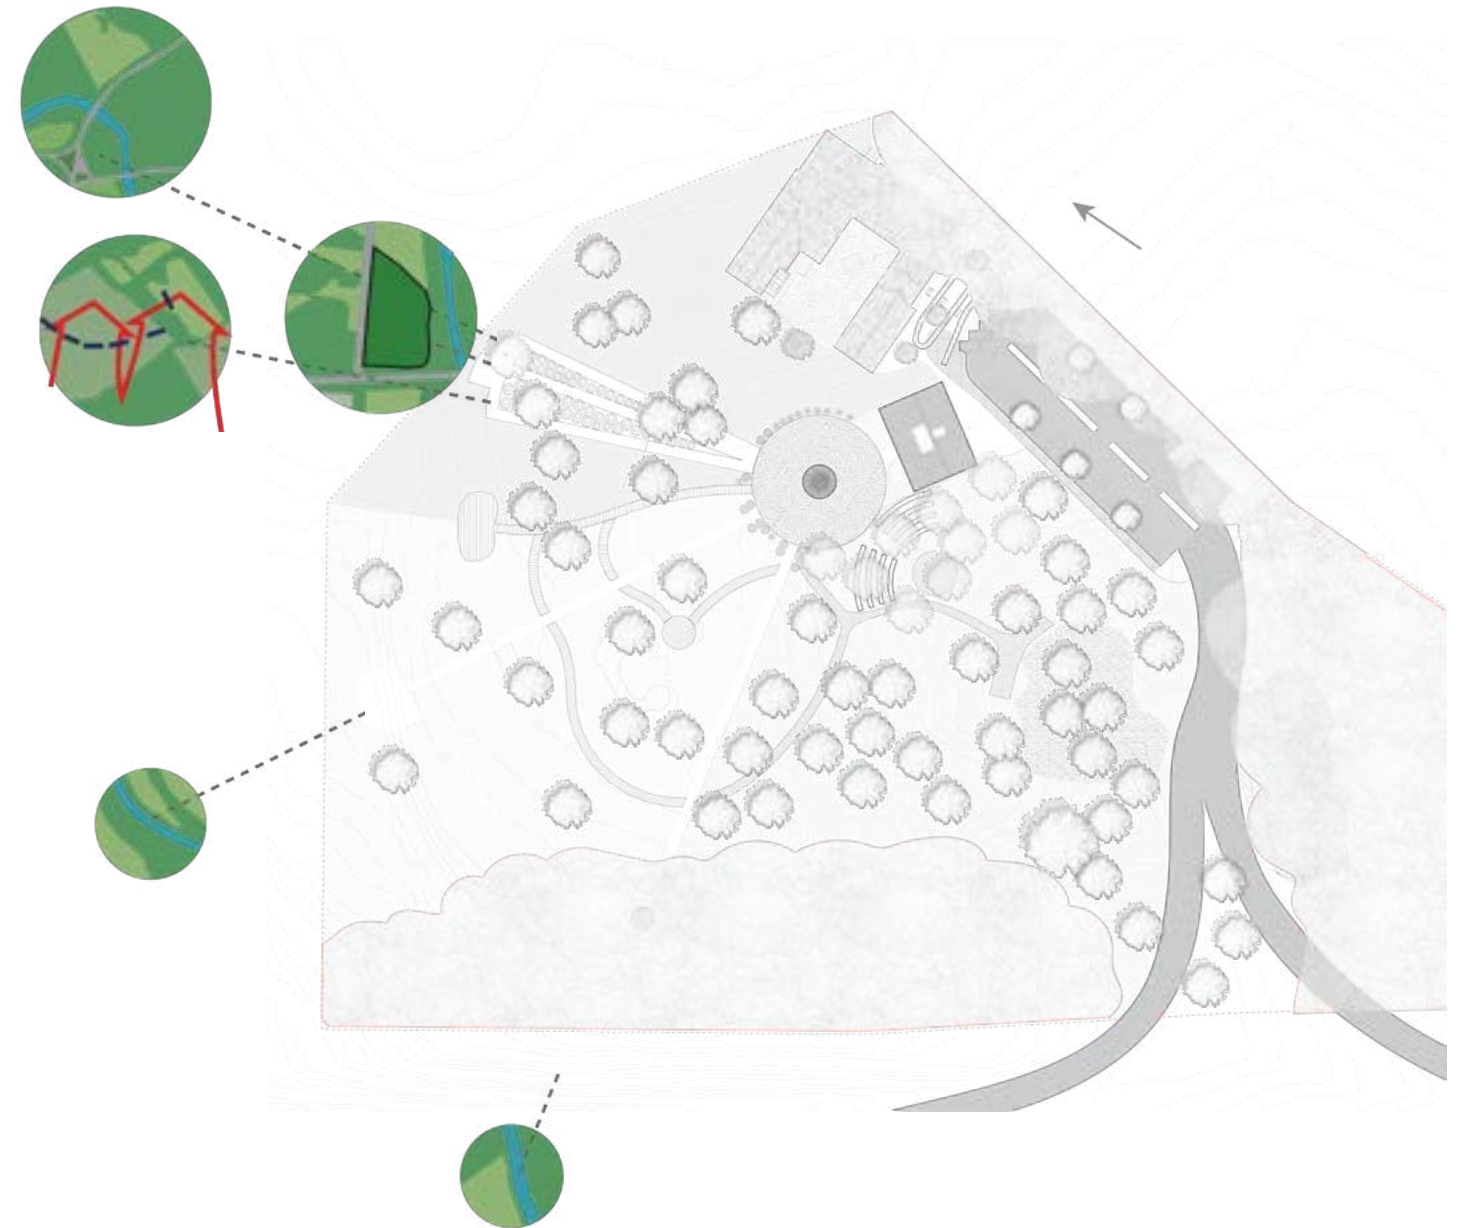

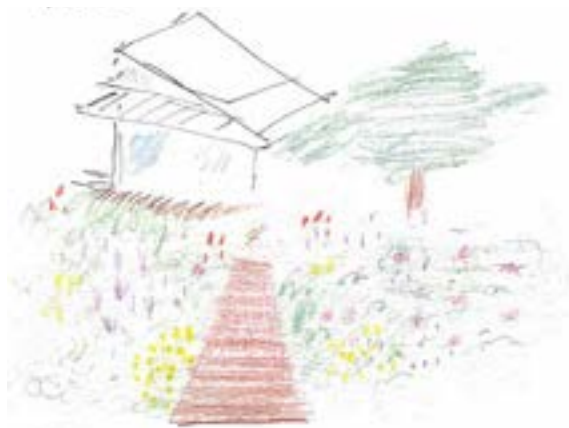

Collaboration with Vu Mai

MENTOR - Michael Ezban

Competition Win - Conceptual Design

The Monoacy Memorial Park pays respect to three groups. The Natove Americans, Slaves, and Soldiers on the Monocacy Battlefeild. Connecting to the historical slave village, the water wears in the river and the main battle areas, axis were made converging at a tree at the center of the memorial.

The site and the visitor center were developed together with Vu. Later The Education Center was designed by Sofia and required certain changes to the site, but the overall concept of the memorial park stays the same. The Axial connection to the past and appreciation for the landsape.
